PhD-positions (16 positions)

PhD-positions (16 positions) are available at the Faculty of Medicine and Dentistry, starting 1 September 2016.

Twelve (12) positions are open PhD-grants.

Two (2) positions are earmarked dentistry. One position is within the field of Community Dentistry, the other position is within the field of Maxillofacial Radiology.

These positions are for applicants with Masters' degree education (or equivalent) relevant for research areas at the faculty. Candidates will be appointed for a period of four (4) years or max 4 months after completed the PhD-degree, if this is achieved within a shorter time than four years. The positions include 25 % duty work such as teaching, exam work or supervision, depending on the demands at the department. If you have been previously employed in a recruitment position, this same period of engagement will be deducted from the total employment period.

Two (2) part-time research fellowships (50 %) are earmarked the National Program for Integrated Clinical Specialist- and PhD-training for dentists. One position is within the field of Oral Surgery and the other position within the field of Endodontics.

This position is for applicants with Masters' degree education (or equivalent) in dentistry. This involves appointment both as PhD-candidate and specialist candidate in a combined full time (100 %) position for eight years (oral surgery) and six years (endodontics). Applicants for this Integrated Clinical Specialist- and PhD-training for dentists must apply for the national announcement of this program in addition to applying for the research fellow position.

This combined position require an appointment in a PhD-position and admission to the organized research training (PhD program), in addition to admission to the specialist education, all for the same period of time.

The following applies for all the above listed positions:

The positions will be affiliated with a relevant department at the faculty.

Part-time:

It is possible to combine a part-time (50 %) ph.d.-position with another part-time (50 %) position. The total employment period for these combined positions amounts to six (6) years. This must be approved within starting date.

Evaluation of the applicant:

Applicants are evaluated based on the following criteria:

- **Applicant:** The applicant's competence, grades and relevant professional activity.
- **Project:** The scientific value of the project in addition to its feasibility within the framework of the PhD program and research fellowship. Research areas laid down in the Faculty's strategic plan, in addition to budget priorities are also factors that will be part of the evaluation process.
- **Research environment:** The research environment's ability to develop the candidate, national and international specialist networks, relevant publication activity and experience in supervising. Interdisciplinary projects connected to strong research environments will be emphasized in the evaluation process.

For more information please visit <http://www.uib.no/mofa/65433/ledige-stillinger>

Organized research training (PhD program):

In a PhD-position at the Faculty of Medicine and Dentistry you will participate in an approved program for a PhD within the set time period. You must have admission to the organized research training (PhD program) at the Faculty in order to qualify in a PhD-position. The final plan for the completion of the organized research training must be approved by the Faculty within three months after you have taken up the position.

Main supervisor should be employed at the Faculty of Medicine and Dentistry and at least one of your supervisors must be employed at the Faculty of Medicine and Dentistry. Supervisor must be available at the Faculty throughout the employment period.

We can offer:

- Salary in accordance with level 50 (code 1017/pay framework 20.8) on the government salary scale. For applicants with a completed internship and applicants with at least one year of employment in a position as a dentist: level 52. Further increases in salary will be based on seniority in the position. For applicants with specialist education: level 58 (code 1017/Pay framework 20.15).
- A good pension scheme in the Norwegian Public Service Pension Fund.

More information:

PhD-positions are fixed term positions. You cannot be employed in a PhD- position for more than one fixed term period at the same institution, or had similar employment at an institution in the region.

You may apply for a PhD-position prior to the completion of your Master's degree (or equivalent) education, but it requires that the education must be completed by the date of appointment stated in the announcement text.

The teaching is usually performed in Norwegian.

For more information regarding technical matters connected to the application process, please contact Head of Recruitment Marianne Bø Larsen (e-mail: Marianne.bo@mofa.uib.no, phone +47 55 58 62 06).

For more information on the positions, please contact the Vice Dean Eyvind Rødahl (e-mail: Eyvind.Rodahl@mofa.uib.no, phone: +47 55 58 60 14).

Recruitment for positions in the state sector:

State employment shall reflect the multiplicity of the population at large to the highest possible degree. The University of Bergen has therefore adopted a personnel policy objective to ensure that we achieve a balanced composition regarding age and sex and the recruitment of persons of various ethnic backgrounds. Persons of different ethnic backgrounds and persons with disabilities are therefore encouraged to apply for the position.

The successful applicant must comply with the guidelines that apply to the position at any time. The University of Bergen applies the principles of public openness when recruiting staff to scientific positions. Information about the applicant may be made public even though the applicant has requested not to be named in the list of applicants. The applicant will be notified if his/her request is not respected.

How to apply for the positions

Submit application and CV (max 3 pages) with a complete overview of former education, relevant experience and attachments electronically to the University of Bergen via the link on this site («Apply for position”).

In the box “My application letter” you must include the title of your project, in addition to the name of your main- and possible additional supervisors.

You may apply for both an open and an earmarked position. This must be made clear in the application letter. Here you must include which positions you are applying for and whether you are applying for an open or/and an earmarked position.

You may have up to eight attachments.

These must be named according to contents and with numbers from 1-8 as follows:

1. Project description, maximum seven pages, including references. The project description must include topic, problem for discussion and choice of theory and method.
2. Certified copies of diplomas and transcripts of all academic grades.
3. Applicants whose education is from other countries need to also enclose a certified translation of the diploma and transcript of grades to English or a Scandinavian language, if the original is not in any of these languages. It is required that the applicant enclose confirmation from NOKUT which recognises that their education is of a scope and level corresponding to the level of a Norwegian Master's degree. Please see www.nokut.no/en for more information about NOKUT's general recognition.
4. Possible scientific work (as pdf documents) and list of publications.
5. Statement from supervisors, main supervisor's CV (max 3 pages) and candidate production, main supervisor's publications over the last five years.
6. Review of research group (max 1 page)
7. - 8. Other relevant enclosures

Please note that we will not be able to evaluate your application if lacking important documents.

Applications submitted by e-mail will not be evaluated.
