Deadline: 6/30/2025
Website: <http://www.uio.no/>
Scope: Fulltime
Duration: Permanent

Campus Ahus

Professor II/Associate Professor in Statistics at Campus Ahus

About the position / About the job

Two 20% positions as Professor II/Associate Professor are available at the Clinic for Health Services Research and Psychiatry, Institute of Clinical Medicine, Campus Ahus. The applicant must hold a main position at Akershus University Hospital.

The positions are part of a strategic initiative by Campus Ahus and Ahus with the aim of stimulating academic staff to initiate more pragmatic studies by utilizing data from national registers such as the Norwegian Patient Register, the Municipal Patient Register, and the large amount of data from Statistics Norway.

Additionally, the strategic initiative is connected to providing methodological support in research design, mathematical modelling, statistical methods, and health economics to academic staff and researchers at Campus Ahus/Ahus. This requires experience with the use of national registers, including experience in linking medical records and national register data, as well as competence in mathematics, statistics, and health economics.

[Description of Positions](#)

Job responsibilities

- Obtain external funding for research projects utilising data from Electronic Patient Journals (EPJ) merged with national registered data
- Conduct advanced statistical and health economic analyses in collaboration with researchers at Campus Ahus
- Advise and assist researchers at Ahus and Campus Ahus with
 - research design, statistical methods, and mathematical modelling, including projections.
 - use and linking of national register data for clinical research
 - application areas and validity for various types of health economic measures such as EQ5D and SF36

Qualification requirements

- PhD in a relevant field (mathematics, statistics, economics, social sciences, medicine etc.)
- Solid experience with and significant methodological competence in quantitative research
- Relevant scientific publications beyond the doctoral dissertation

The University of Oslo has a [transfer agreement](#) with all employees that is intended to secure the rights to all research results etc.

University of Oslo

The University of Oslo is Norway's oldest and highest ranked educational and research institution, with 26 500 students and 7 200 employees. With its broad range of academic disciplines and internationally recognised research communities, UiO is an important contributor to society.

The Institute of Clinical Medicine (Klinmed) is one of three institutes under the Faculty. Klinmed is responsible for the Faculty's educational and research activities at Oslo University Hospital and Akershus University Hospital. With about 900 employees spread over approximately 425 man-labour years, Klinmed is the university's largest institute. Our activities follow the clinical activity at the hospitals and are spread across a number of geographical areas.
