Associate Professor in Clinical Child-, Adolescent-, and Family Psychology

Job description

A permanent position as Associate Professor in Clinical Child and Adolescent Psychology is available at the Clinical Section at the Department of Psychology, University of Oslo.

The successful candidate is expected to initiate and lead research, supervise PhD candidates, participate in teaching, examination work and assessment at all levels, and to carry out administrative duties in accordance with the needs of the Department of Psychology.

The candidate will teach in clinical child, adolescent, and family psychology, with special emphasis on psychotherapeutic work with children, adolescents and their families. The appointed candidate, as a clinical supervisor for students in the final semesters of the psychologists’ professional education program, will carry the formal, legal responsibility for patients treated at UiOs training clinic situated at Nic Waals Institute. The position therefore requires formal authorization as a licensed specialist in clinical child-, adolescent- or family psychology.

Applicants will be assessed according to documented research activity and teaching competence within the described field. Particular emphasis will be given to scientific production of high quality.

Qualification requirements and assessment criteria

- Associate Professor: PhD or equivalent academic qualifications in clinical child, adolescent, or family psychology. Applicants who are qualified for full professorship may apply for promotion once they have taken up their position.
- Applicants must be fluent in Norwegian/Scandinavian language since teaching and in-vivo clinical supervision will be part of the obligations from hiring.
- Applicants must be authorized as Psychologist in Norway, formally authorized as a clinical specialist in child and adolescent or family psychology, and have substantial treatment experience with children and adolescents.
- You must be able to work collegially with demonstrated contribution to high quality teaching, research, and scholarship.
- An innovative, active and strong research profile with potential for performing research at an international level.
- Primary emphasis will be given to publications in internationally acknowledged publication channels.
- In the evaluation of candidates for the position, emphasis will be placed on research and international publications the last five years as well as the candidate's future research potential. In the assessment of publications, originality, quality and scope will be emphasized.
- Pedagogical skills and formal basic pedagogical competence. Applicants that cannot document such competence at the time of employment must acquire this within the first two years subsequent to their appointment.
- Teaching abilities are an important factor in the evaluation of candidates. Relevant pedagogical and other experience should be well documented in a teaching portfolio that addresses students' learning, development over time, a research attitude to teaching and learning, and a collegial attitude and practice.

Personal skills

The following qualifications will count in the assessment of the applicants:

- Innovative with ability to contribute and thrive in an active and dedicated research and teaching environment
- High motivation, work capacity and strong dedication to the subject matter
- Good communication skills
- Good collaborative and relational skills
- Flexibility
- Positive attitudes and behavior

We offer

- Salary NOK 667 200 - 789 200 per annum depending on qualifications in position as Associate professor (position code 1011)
- A professionally stimulating working environment
- Attractive welfare benefits and a generous pension agreement, in addition to Oslo’s family-friendly environment with its rich opportunities for culture and outdoor activities

How to apply

The application must include:

- Cover letter (statement of motivation, summarizing scientific work and research interest)
• CV (complete list of education, positions, pedagogical experience, administrative experience, project acquisition and coordination experience, and other qualifying activities)
• A complete list of publications
• Academic works (up to 10 publications)
• PhD Diploma/documents proving clinical experience/qualifications
• Educational portfolio of 3-6 pages documenting educational competence and experience, including a reflection note in which your own practice and learning vision is anchored in the SoTL criteria (focus on student learning, development over time, a research approach and a collegial attitude and practice)
• Description of qualifications in dissemination, management and administration
• List of reference persons: 2-3 references (name, relation to candidate, e-mail and phone number)

The application with attachments must be delivered in our electronic recruiting system. Please note that all documents should be in English or a Scandinavian language.

In the evaluation of the qualified candidates the full range of these criteria will be explicitly addressed and assessed.

Interviews will be part of the appointment process, possibly along with a trial lecture.

**Formal regulations**

The successful candidate who at the time of appointment cannot document basic teaching qualifications will be required to obtain such qualifications within a two-year period.

The successful candidate must demonstrate mastery of both English and one of the Scandinavian languages as working languages.

Please refer to the Rules for Appointments to Professorships and Associate Professorships at the University of Oslo, the Guide for Applicants and Members of the Assessment Committee and Rules for practicing the requirement for basic pedagogical competence at the University of Oslo.

Pursuant to section 25(2) of the Freedom of Information Act, information concerning the applicant may be made public, even if the applicant has requested not to appear on the list of applicants.

The University of Oslo has a transfer agreement with all employees that is intended to secure the rights to all research results etc.

The University of Oslo has a personnel policy objective of achieving a balanced gender composition and to recruit people with an immigrant background.

The University of Oslo has a goal of recruiting more women in academic positions. Women are encouraged to apply.

In addition, the University of Oslo aims for its employees to reflect the diversity of the population to the greatest degree possible. We therefore encourage qualified applicants with disabilities or gaps in their CV to apply for the position. The University of Oslo will adapt the workplace to suit employees with disabilities. Applicants who indicate that they have disabilities or gaps in their CV are made aware that this information may be used for statistical purposes.
